
(a) gradient against silencing
share of p removed by silencing
gradient at gain 1, as share of p
WN18RR (sign right 61%)
FB15k-237 (sign right 75%)
CoDEx-S (sign right 69%)
NELL23k (sign right 76%)
linear prediction exact
(b) switches, not dials
fraction of channels
share of the full effect present at half gain
WN18RR (323 channels)
FB15k-237 (208 channels)
CoDEx-S (618 channels)
NELL23k (968 channels)
linear dose response
